## **Panasonic Canada and Wesco Production Ltd. introduce the Panasonic Factory Tool**

Wesco Production Tools Ltd. an Industry Leader in torque and assembly solutions has partnered with Panasonic Canada, world leaders in quality product development, to introduce a tool that is unprecedented in the assembly industry.

The Panasonic Factory Tool is a battery operated torque controlled tool that will run down to pre-set torques with an algorithm built in to compensate for prevailing torque. Utilizing Panasonic's industry leading battery technology the runtime, charge time and durability has stepped well beyond industry standards. Massive energy cost savings, significantly reduced carbon footprint, accuracy and durability will keep this tool an industry leader for years to come.

Rob Anderson, General Manager of Wesco with 20 years of assembly industry support notes "Quite simply this tool is a game changer. Green initiatives and cost savings aside this is an extremely durable and accurate tool that requires very little maintenance which is exactly what the assembly industry has been looking for".

Together the Wesco/Panasonic synergy provides a solution with the assurances of Panasonic's unparalleled quality backed up by Wesco's industry leading technical service and support.
