MODULO

SupplyPoint

www.supplypointsystems.com

Could your business benefit from up to 40% reduction in wastage?

MODULO can provide...

- 24/7 availability of items
- Substantial operational cost savings
- Optimised inventory levels
- Minimised production downtime

Designed and manufactured in the UK, Modulo incorporates industry leading and award winning technology by Supply Point Systems to provide a higher capacity machine at a very competitive cost.

High capacity secure solutions

TOUCH SCREEN TECHNOLOGY

High quality, reliable, 15 inch Capacitive screen.

SECURE LOCATIONS

Up to 120 secure locations in a single frame managing 1,440 components, system can be expanded to manage up to 14,400 components.

EASY SCOOP DESIGN

"Easy Scoop" design of compartments in a drawer ensure a smooth retrieval of contents. Made from strong ABS plastic and housed in a steel frame, Modulo is a robust and reliable product.

ACCOUNTABILITY

The unique SPS software provides a complete audit trail on who, when, where and why about the usage of any component within the system.

Simple solutions, technically advanced

Combined with our powerful SPS inventory management software the MODULO provides a high capacity solution to meet the unpredictable challenges of logistics and supply chain management

CONFIGURABLE

MODULO can be configured to provide different size drawers and compartments. Up to 10 MODULO frames/machines can be connected to provide 1,200 locations.

UNIQUE MANUAL OVERRIDE FACILITY

In an ideal world a manual override would not be necessary, but if required Modulo, ensures 24/7 availability with a unique front accessible manual override capability, which is simple and easy to use. The override can be selectively activated allowing access to the required items only.

FUTURE-PROOF

MODULO incorporates a USB interface and a DCS expansion port for use with RFID and other similar ancillary equipment.

DRAWER OPTIONS

MODULO currently supports four different drawer sizes. Additional sizes may be available on request.

HIGH SPEED ACCESS

Rapid search and selection of items via the SupplyPoint™ software is further enhanced with a complete LED identification system which guides users directly to the drawer containing their items.

COMPATIBILITY

The MODULO is fully compatible with all existing SupplyPoint™ machines running V3.1 or greater of the software.

SECURITY

Access to the contents of items in the MODULO can be restricted by the use of: user name, password, biometric identification, card readers or a combination of these options. The drawer locks are of a high strength and cannot be forced open in normal or aggressive use without the assistance of tools. The items held within the MODULO are hidden from view and can be randomly distributed around the machine, reducing the risk of the unauthorised removal of contents.

EFFICIENCY

Multiple drawers can be selected in one transaction minimising the time required to manage large volumes of stock.

SPECIFICATION

CAPACITY
- 120 locations (max)
- 1440 compartments (max)

DIMENSIONS
- (D x W x H) mm
  510 x 545 x 2000
- (D x W x H) inches
  20.1 x 21.5 x 78.7

CONSTRUCTION
- Steel frame
- ABS plastic drawers

USER INTERFACE
- 15 inch Standard capacitive touchscreen

COLOUR
- Grey or White Drawers
- Frame available in different colours
WIEGHT CAPACITY
- 5kg Per drawer UDL
